

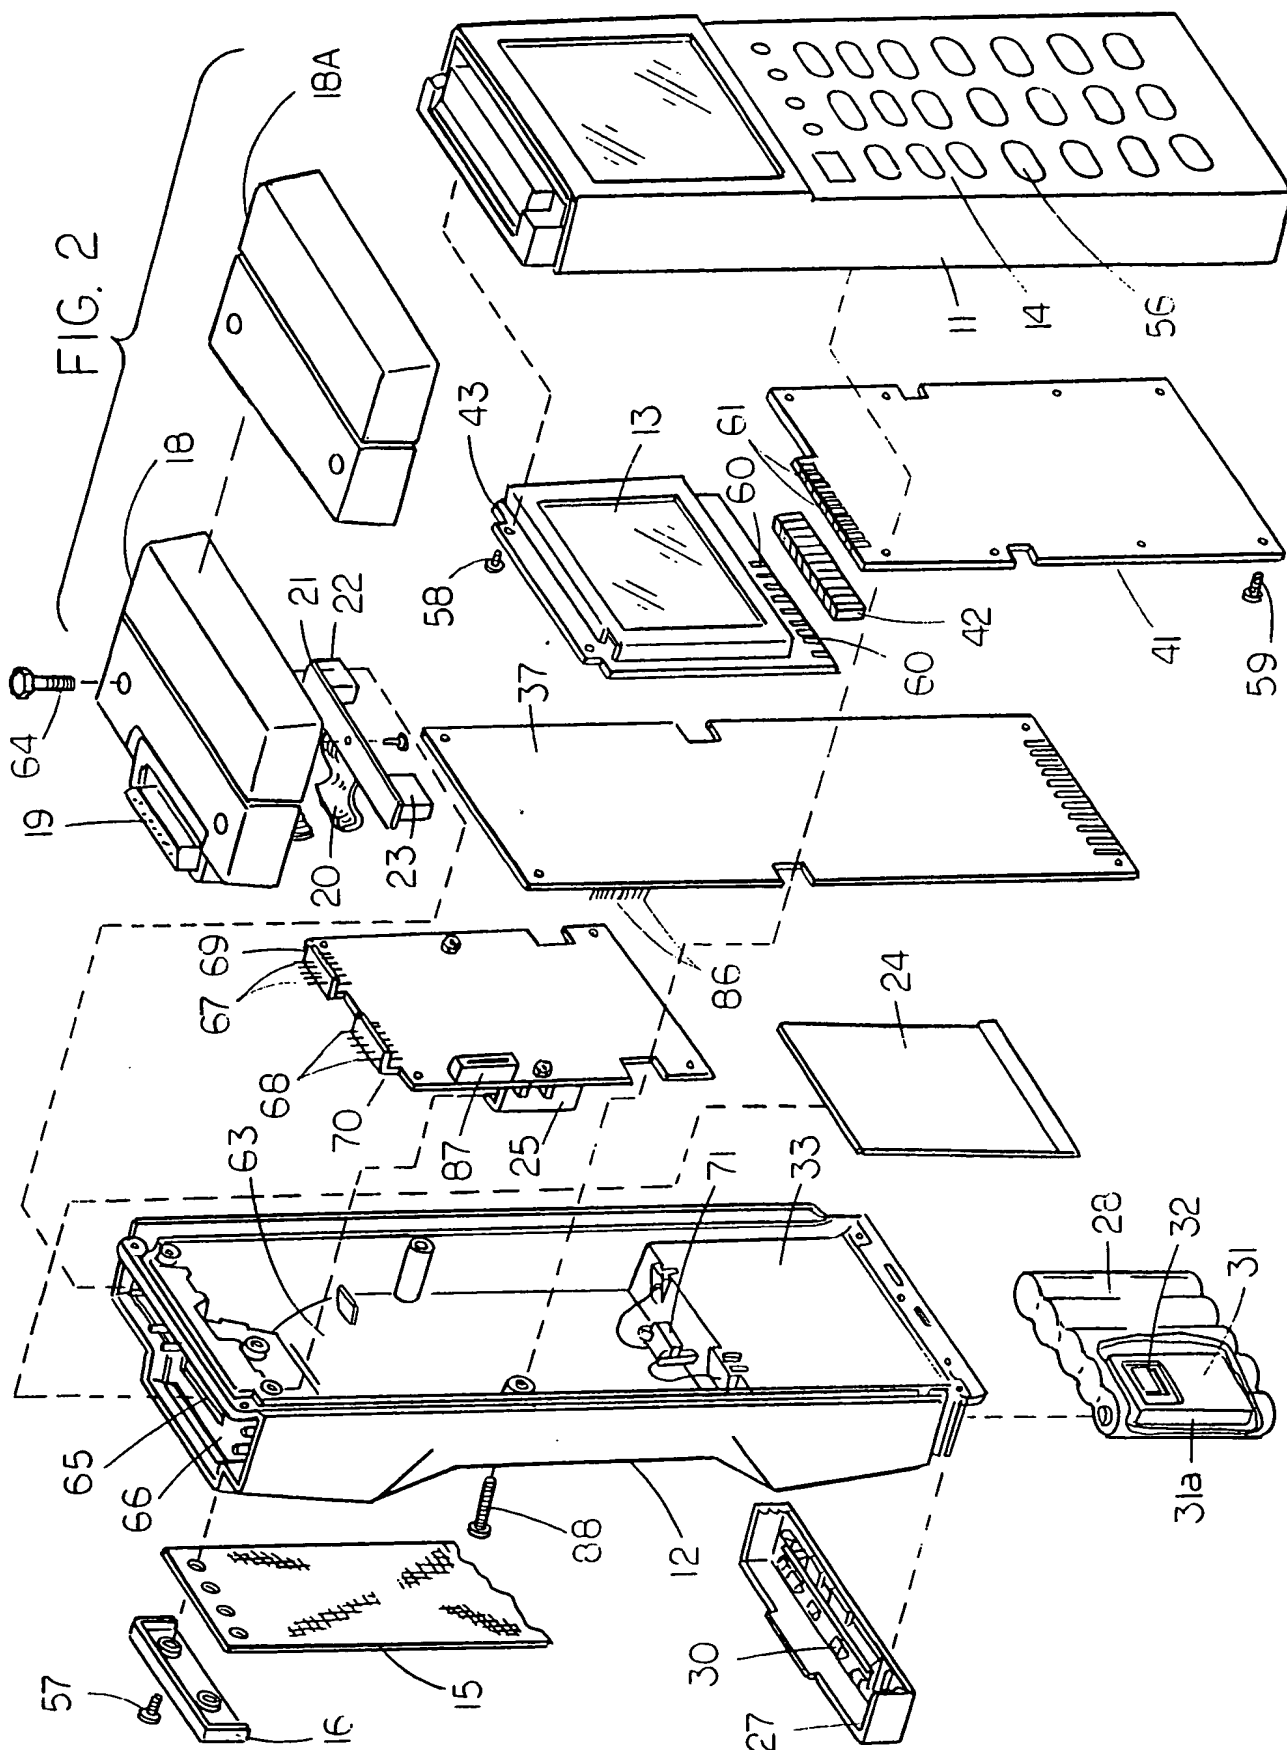

FIG. 2 is an exploded perspective view of a portable electronic device, showing various components and their assembly relationships. The components are labeled with reference numerals:

- 11**: Main housing or chassis.
- 12**: Internal frame or support structure.
- 13**: Display screen or panel.
- 14**: Keypad or control panel.
- 15**: Battery pack or power source.
- 16**: Battery cover or protective plate.
- 18**: Side housing or bezel.
- 19**: Screws or fasteners for the side housing.
- 20**: Mounting bracket or support for the battery.
- 21**: Battery terminal or connector.
- 22**: Battery terminal or connector.
- 23**: Battery terminal or connector.
- 24**: Small rectangular component, possibly a speaker or microphone.
- 25**: Mounting bracket or support for the small component.
- 26**: Mounting bracket or support for the small component.
- 27**: Mounting bracket or support for the small component.
- 28**: Mounting bracket or support for the small component.
- 29**: Mounting bracket or support for the small component.
- 30**: Mounting bracket or support for the small component.
- 31**: Mounting bracket or support for the small component.
- 32**: Mounting bracket or support for the small component.
- 33**: Mounting bracket or support for the small component.
- 34**: Mounting bracket or support for the small component.
- 35**: Mounting bracket or support for the small component.
- 36**: Mounting bracket or support for the small component.
- 37**: Mounting bracket or support for the small component.
- 38**: Mounting bracket or support for the small component.
- 39**: Mounting bracket or support for the small component.
- 40**: Mounting bracket or support for the small component.
- 41**: Mounting bracket or support for the small component.
- 42**: Mounting bracket or support for the small component.
- 43**: Mounting bracket or support for the small component.
- 44**: Mounting bracket or support for the small component.
- 45**: Mounting bracket or support for the small component.
- 46**: Mounting bracket or support for the small component.
- 47**: Mounting bracket or support for the small component.
- 48**: Mounting bracket or support for the small component.
- 49**: Mounting bracket or support for the small component.
- 50**: Mounting bracket or support for the small component.
- 51**: Mounting bracket or support for the small component.
- 52**: Mounting bracket or support for the small component.
- 53**: Mounting bracket or support for the small component.
- 54**: Mounting bracket or support for the small component.
- 55**: Mounting bracket or support for the small component.
- 56**: Mounting bracket or support for the small component.
- 57**: Mounting bracket or support for the small component.
- 58**: Mounting bracket or support for the small component.
- 59**: Mounting bracket or support for the small component.
- 60**: Mounting bracket or support for the small component.
- 61**: Mounting bracket or support for the small component.
- 62**: Mounting bracket or support for the small component.
- 63**: Mounting bracket or support for the small component.
- 64**: Mounting bracket or support for the small component.
- 65**: Mounting bracket or support for the small component.
- 66**: Mounting bracket or support for the small component.
- 67**: Mounting bracket or support for the small component.
- 68**: Mounting bracket or support for the small component.
- 69**: Mounting bracket or support for the small component.
- 70**: Mounting bracket or support for the small component.
- 71**: Mounting bracket or support for the small component.
- 72**: Mounting bracket or support for the small component.
- 73**: Mounting bracket or support for the small component.
- 74**: Mounting bracket or support for the small component.
- 75**: Mounting bracket or support for the small component.
- 76**: Mounting bracket or support for the small component.
- 77**: Mounting bracket or support for the small component.
- 78**: Mounting bracket or support for the small component.
- 79**: Mounting bracket or support for the small component.
- 80**: Mounting bracket or support for the small component.
- 81**: Mounting bracket or support for the small component.
- 82**: Mounting bracket or support for the small component.
- 83**: Mounting bracket or support for the small component.
- 84**: Mounting bracket or support for the small component.
- 85**: Mounting bracket or support for the small component.
- 86**: Mounting bracket or support for the small component.
- 87**: Mounting bracket or support for the small component.
- 88**: Mounting bracket or support for the small component.
- 89**: Mounting bracket or support for the small component.
- 90**: Mounting bracket or support for the small component.
- 91**: Mounting bracket or support for the small component.
- 92**: Mounting bracket or support for the small component.
- 93**: Mounting bracket or support for the small component.
- 94**: Mounting bracket or support for the small component.
- 95**: Mounting bracket or support for the small component.
- 96**: Mounting bracket or support for the small component.
- 97**: Mounting bracket or support for the small component.
- 98**: Mounting bracket or support for the small component.
- 99**: Mounting bracket or support for the small component.
- 100**: Mounting bracket or support for the small component.
